Date of Publication: 1981

Abstract:

The paper explored how guidance and counselling could assist in the recruitment of personnel at the intermediate manpower level in the Nation-wide Apprenticeship Scheme and Vocational Training Centre being planned for the country. The place and relevance of guidance and counseling also in the sustenance of the various technical and non-technical occupations that would emerge in Nigeria as a result of the scheme was discussed. The need for information on labour for completers of this scheme was emphasized.
