Title of Article: Career Guidance in Physical Education and Sport in Africa

Authors: Alao, A. A. and M. L. Krotee

Date of Publication: 1999

Abstract:

The chapter explores the nature of guidance and the meaning and value of career guidance and the implications of career guidance in Physical Education and Sport in Africa. The chapter delves into the crucial factors in career guidance, with specific reference to career pathways in physical Education and Sport and relevant educational and occupational information and career planning with reference to Physical Education and Sport were discussed. Career opportunities in Physical Education were highlighted as well as job strategies and other salient factors that may affect career patterning for those interested in pursuing the multiple pathways that Physical Education and Sport offers as we enter the 21st century.
