Title of Article: Economic Empowerment and Socio-Economic Challenges Facing Women Entrepreneurs in the South West Nigeria: An Empirical Study

Author(s): Chinonye Okafor

Abstract: This paper examined the impact of empowerment and socio-economic factors on women entrepreneurs. The results revealed that women entrepreneur's major constraints are mainly lack of access to finance, information and capacity building. The paper recommends that the government should help in enhancing women entrepreneurs’ access to resources by making them available to them.
