Date: 2013

Abstract: Introduction to Business and organisational analysis is a two-in-one monograph that combines the subjects of Introduction to Business and Organisational Analysis. The monograph is written for students within the Faculty of Social and Management Sciences who plan to major in business or the social science areas of specialisation. Readers will be exposed to the world of business, while non-business students will also benefit by having a glimpse of what the content entails and obtain a basic understanding of business to round out their education. Topics include issues in organisational studies and the concept and meaning of business to the evolution and nature of business in society with focus on the role internal and external business environments play in business. The book also examined the forms of business ownership, forms of organisation and management, among others.
