

Capacity Building

A Chapel Service Message by Pastor Abraham Ojeme on November 19, 2013

A fulfilled destiny is impossible without enhanced capacity. You cannot go far in life without enhanced capacity because life will place a demand on your capacity.

It is your capacity that will give you the competitive advantage in this world. The capacity of a system is a collective capacity of the operator.

Capacity building is fundamental for greatness. God must be our benchmark for excellence. Make a commitment for a personal value system that is glorious.

You should make a commitment to a value system that is glorious. You must have set goals and objectives. You do not live life anyhow but with set objectives. Visionaries set goals; people of excellence do not only know where they are going but set goals to get there.

Continuity is one of the principles to embrace, if one really wants to excel in life and achieve success. There must be a commitment to tenacity and standard.

Thomas Edison said, "I have not failed. I've just found 10,000 ways that won't work." You do not need to compromise on your standard because of unsuccessful attempts in the past but be tenacious and passionate about your assignment.

Lack of passion has caused so many people's failure in many areas of their lives. Fanatical spirituality is the principle for achieving success in life.
