"I came all the way from Kenya to Covenant University in Nigeria not because Kenya doesn't have good universities. It is because what every youth seeks to be real human being is here at Covenant University."

"It's quite an experience being at Covenant University. I came to Covenant University at a different stage of my life. I found out that everything has a season and this is my season of spiritual growth. Covenant University is a Christian University that happens to be a World Class University. I am proud to be here."
**-Olufemi Samuel Oke,

"I was so unhappy at first because of the cultural differences and stories I had heard about Nigeria and the educational system. But now, I can realize how much I could have lost if I hadn't come to Covenant University."

TESTIMONIALS FROM SOME OF OUR INTERNATIONAL STUDENTS AND GRADUATES

"Covenant University is an institution in a class of its own. The kind of programme we were exposed to was rigorous, demanding and challenging, but at the end the effect is paying off for us today. Covenant University gives students a rounded education that opens their mind in a totally different way, thereby helping them tap into their innate capacities."

Kenya**

"Covenant University was a home away from home. We were very excited about coming to study in the University, we found a family who took us as their own and as a result we felt we had our families here, despite the cultural differences."

**- MARJORIE OKEYO,
