ARC321: Architectural Design IV (4 Credit Units)

Department of Architecture

Covenant University
1. ARC321
1.1. ARC321: Architectural Design IV (4 Credit Units)

This course is a continuation of ARC311 and it introduces the student to higher level of architectural design. Students are to be exposed to inter-disciplinary aspect of architectural design principles, where constraints like site, climate, landscape, structure are expected to influence the final design decisions. Design projects are drawn from key areas comprising Architecture of Buildings (Individual and groups of Buildings) and Architecture of Towns and Cities (Housing and Industrial Developments, Neighbourhood Design, Urban Renewal/Regeneration, Transportation, Commercial and Recreational Facilities etc.).
