MIS 329: Student Industrial Work Experience (SIWES) Training Scheme (6 Units)

Department of Computer and Information Sciences

Covenant University
1. MIS329
1.1. MIS 329: Student Industrial Work Experience (SIWES) Training Scheme (6 Units)

During the SITS, each student will undergo a practical on the job training in IT industry approved for its relevance to the students major for a minimum of 14 weeks starting immediately after the alpha semesters examinations at 300 level. A program of training will be drawn by the College and the Industry for each student, and a prescribed log book with daily recording of the student activities is to be kept by each student and appropriately signed. At the end of the program, a written report is to be submitted to the college and each student to present a seminar on his/her industrial experience. Each student must pass a prescribed certification examination during this second industrial training.
