ECN412 Advanced Macro-Economic Theory I (2 Units)

Department of Economics

Covenant University
1. ECN412
1.1. ECN412 Advanced Macro-Economic Theory I (2 Units)

This course builds on the foundation laid in year three. It deals with the study of the determinants of the level of growth. Topics covered include: Keynesian and classical models; income determination in closed and open economies; money, interest and prices; growth theory and optimal economic policies under alternative exchange rate regimes.
