MAC322: Desktop Publishing (2 Units)

Department of Mass Communication

Covenant University
1. MAC322

1.1. MAC322: Desktop Publishing (2 Units)

This course introduces students to writing, editing and designing newsletters and other short publications using personal computers and desktop publishing software. The course will emphasize the layout and design of newsletters, brochures and newspapers. Special attention will also be given to readability and blogging potentials. Basic competence in the use of personal computers, laptops etc gotten from CST111 and CST121 will be handy in this course.
