MAC431: New Communication Technologies

Department of Mass Communication

Covenant University
1. MAC431
1.1. MAC431: New Communication Technologies

(2 Units)

This course is designed to equip students with knowledge about New Information and communication technologies. It examines the technologies and application of computer and communication as well as multi-media system, data communication, the internet and the World Wide Web (www), hardware and software for production, presentation and transmission on video, voice, text and data. Implications, impacts and challenges of ICT on mass communication and society are also expected to be examined.
