This course offers a systematic and theoretical study of political and socio-economic contents of development and underdevelopment in the Third World. Focus would be directed towards locating and analyzing the global international structures that engender dependent relations while those structures that internalize imperialist (social, economic and political) relations would also be grappled with. It will finally look at the agents of change and the constraints that the post-colonial states in Africa, Asia and Latin America face in their process(es) of development.
