SOC123 Elements of Scientific Thought II (2 Units)

Department of Sociology

Covenant University
1. SOC123
1.1. SOC123 Elements of Scientific Thought II (2 Units)

This course is a continuation of SOC113. The course further introduces students to the issue of sociology as a scientific discipline. Discussions will include what science is and what it is not, social science and the problem of values, the use of science and the impact of science on our world.
