1.1. SOC316 Inter-group Relations (2 Units)

This course deals with groups, group behaviour and group inter-relations. The theories of integration and assimilation are analysed. Relationships among ethnic and racial groups globally and patterns of immigrations, assimilation and mobility and inter-ethnic conflicts and coalition will be examined. Although the perspective is historical, contemporary data will be used to explore the question of the persisting impact of ethnicity. Special attention will be paid to the relationship between ethnicity and social class.
