

Title: Computer Application Packages.

Author(s): Ayo C. K

Outlet: McKay Educational Series, Lagos. ISBN 9780664912. 344 pages.

Date: 2007

Abstract: This book is consist of nine chapters of 344 pages and is written following the course content for Computer Application course taken by University students. The chapters of the book are arranged to follow a logical order of thought, without any assumption of prior computer literacy skill for the reader. The topics covered include: The Computer System, Microsoft Windows XP operating system, MS Word, MS Excel, MS Access, MS Frontpage. MS Outlook, MS PowerPoint and Using the Internet. Each chapter is also accompanied with a set of review questions designed to help the reader test her level of understanding and enforce the vision of Covenant University to make the students market and competition driven before graduation.
