Date:

Abstract: The study was carried out to investigate the beneficial applications of Facilities Management in fifty-seven hotels of various 'stars' in South-Western geopolitical zone of Nigeria. It was found that about that about thirteen benefits were common to all the stakeholders comprising of hotel organizations, Facilities Managers and Customers while additional five benefits were just peculiar to the facilities managers and customers only. The study recommended that International Facilities Management (Nigeria Group), hotel organizations and governments at all levels in Nigeria should be conscious of this development and put in place strategic actions to market and educate the gentries on the efficacy of Facilities Management in running hotel business.
