Topic: Engaging the Power of the Holy Spirit for the Fulfillment of Destiny

Introduction

The Holy Ghost is our ordained helper, helping us beyond our human limit.

Knowing Christ saves our soul. Knowing the Holy Ghost saves our lives and preserves our destiny. There is the need to know the Holy Ghost so that we can triumph in the battles of life.

Vision is God's plan for our lives and it can only take the Holy Spirit for the translation of the vision into reality. The outpouring of God's Spirit enables the fulfillment of vision (Joel 2:28).

The Holy Spirit helps us to see the plans of God for our lives. In addition, the most profitable companion for any believer is the Holy Spirit. We are products of God's predestination. Every saved believer is a child of destiny, Romans 8:30.

It is not enough to know Christ, we also need to know and be baptized in the Holy Ghost for the fulfillment of God's glorified plan for us (2Peter1:3).

How does the Holy Spirit enables us to fulfill destiny?

- **He shows us things to come:** He defines the future to us, which is Vision (John 16:13). The Holy Ghost empowers our access to the future that awaits us.
- **He guides our steps to arriving there:** He leads us to get to our destination (Romans 8:14). The Holy Ghost guides us through the uncertain path of life.
- **The Holy Ghost preserves our going in the journey of life (Psalm 105:13):** We have no access to the future without Him. We are helpless without Him. There are battles we win by the help of the ministry of the Holy Ghost without knowing.

When we locate the plans of God, the following motions are set in place:

- God goes before us as we get on course with his plans (Isaiah 45:2). He goes before us to make the crooked paths straight.
- He goes with us (Exodus 33:13).
- He works with us (John 14:10).
- He works through us.
- He works for us (1 Thessalonians 5:24).

Conclusion

The Holy Spirit does not only teach us spiritual things, He teaches us ALL things and reminds us everything we have learnt (John 14:26).

It is one thing to have a helper by your side; it is another thing to call on the helper.
