1.1. EIE519PROJECT I(2 Units)

Each student is required to undertake a project that gives productivity value to the academic knowledge gained in his/her field of study. The project shall involve problem solving using engineering theories and techniques, and the implementation of the project design. The student is expected to design a possible solution to the problem, taking into account various aspects such as professionalism, economy, costing, and engineering viability. At the end of the first semester, each student shall present a seminar on his/her project.
